

HIS FIRST STATE PAPER.

Governor Dietrich is Mapping Out His Inaugural Address. INTENDS TO MAKE IT A SHORT ONE.

Suggestion for the Relief of the Supreme Court Will Be the Feature of the Forthcoming Document.

LINCOLN, Nov. 25.—(Special.)—The inaugural address of Governor Dietrich will be brief, yet it will contain many recommendations intended to strengthen and reform the state's system of government.

Chief among the suggestions that will be offered will be that of a plan for reinforcing the supreme court. Governor Dietrich has discussed this matter with many of the leading attorneys of the state, and the plan that he will suggest will be one which meets with most favor with members of the Nebraska bar.

Mr. Dietrich will be accompanied by his wife and two children. He will arrive in Lincoln on Thursday morning and will remain in the city until the 27th, when he will depart for Washington.

At a conference of several of the officers-elect of the national capital, he will remain in Washington throughout the session of congress, with the exception of a few days during the Christmas holidays, which he will spend in his home in Lincoln.

Congressman Burkett will leave next Thursday for the national capital. He will remain in Washington throughout the session of congress, with the exception of a few days during the Christmas holidays, which he will spend in his home in Lincoln.

Mrs. Alice Beach of 2314 Maple street has begun proceedings against the city to collect \$500 for injuries alleged to have been sustained in a fall on a defective sidewalk.

In keeping with an old established custom, the officers of the Hospital for the Insane last night gave a reception for state officials and employes. Not many of the officials have sufficiently recovered from the shock of the election to participate in social activities, and consequently the attendance last night was small.

At a conference of several of the officers-elect of the national capital, he will remain in Washington throughout the session of congress, with the exception of a few days during the Christmas holidays, which he will spend in his home in Lincoln.

MUSIC.

In arranging for his second recital of the season Mr. J. E. Butler gave evidence that he understands his audience as well as his organ. The same faces that were seen in Trinity cathedral three weeks ago were there again Sunday afternoon, together with many new ones, attending the confidence reposed in him by a music-loving public.

The cathedral was crowded, and many unable to secure seats, stood in the aisles. Mr. Butler was assisted by Mrs. J. Stekel, soprano, and Mr. C. F. Stekel, tenor.

Mr. Butler was assisted by Mrs. J. Stekel, soprano, and Mr. C. F. Stekel, tenor. The program was the rendition of "The Lost Chord," by Mr. Young, organist of the First Congregational church.

Another notable number by Mr. Butler was "The Flying Dutchman," a transcription from the opera of the same name by Richard Wagner, which he will play on the organ.

An immense congregation filled the spacious auditorium of the First Methodist church last night, many being content to sit on the gallery stairs in order to be able to hear the musical program presented by Mr. Kelly and his choir.

When the closing hymn, "Onward, Christian Soldier," was sung by the great congregation and the choir the effect was thrilling. It was a fitting climax to the Sullivan evening.

William H. Carter, who with a companion stole an overcoat Sunday afternoon belonging to Tom Myers, a bartender in a lower Douglas street, has been arrested by Patrolman Rentrow, who also recovered the coat.

She Didn't Feel Well. Georgia Bright, "hop fiend," woke up Sunday morning at her lodging place, 1015 Davenport street, with a headache and a sick stomach. Her beautiful voice was particularly pleasing in last night's work.

Stole an Overcoat. William H. Carter, who with a companion stole an overcoat Sunday afternoon belonging to Tom Myers, a bartender in a lower Douglas street, has been arrested by Patrolman Rentrow, who also recovered the coat.

TO COMPEL ARBITRATION.

Latin-American Congress at Madrid Adopts Measure with That Intent. IS SIGNIFICANT OF FEARS FOR FUTURE.

South American Republics Have Not Been Neighborly and Friendly and Preservation of Peace May Become Difficult.

WASHINGTON, Nov. 25.—(Special.)—Dispatches from Madrid received in official diplomatic quarters here make the first announcement that in the debates before the Latin-American congress, whose sessions have just been concluded, the principle of compulsory arbitration urged by the Bolivian delegates has been approved by almost unanimous vote.

Aside from the immediate question involved, the decision of the congress is regarded in South America as an indication of the alignment of the southern republics on the increasing differences which have arisen of late and which are threatening to bring about a general crisis involving most, if not all, of the South American countries.

The latter question was recently brought to a direct issue by the presentation of a demand from Chile, generally construed as an ultimatum requiring Bolivia publicly to renounce by treaty the sovereignty of Chile over the seacoast in question.

Chile is not required against such unfriendly states as Peru, Bolivia, Ecuador and the other northern republics, but will be used against Chile's more powerful neighbors in the south.

Brazil recently has been brought into alignment by a cordial restoration of good feeling with Argentina. For a time they were opposed over a boundary contest, but by the arbitration of the United States the award was made in favor of Brazil.

Chile is not required against such unfriendly states as Peru, Bolivia, Ecuador and the other northern republics, but will be used against Chile's more powerful neighbors in the south.

REPORTS ON POSTAL SERVICE.

Assistant Postmaster General Submits Statistics and Suggestions. Department's Probable Call for Additional Enlistment Easy to Answer.

WASHINGTON, Nov. 25.—Fourth Assistant Postmaster General John L. Bristol, in his annual report, recommends an amendment to the interstate commerce law prohibiting telegraph and express companies, or their employees, from aiding or abetting in the "green goods" or lottery swindles, or any scheme carried on partly by mail and partly by common carriers and in violation of the postal laws.

Authorizing postoffice inspectors to take out search warrants whenever necessary, payment of incidental expenses incurred by them in the arrest, detention and keeping of prisoners under legal laws until transferred to the United States marshal's custody; construction of inspectors' look-out towers in postoffices whenever deemed necessary by the postmaster general; and prohibiting of loose posting of circulars, handbills, etc., causing to small pieces of mail matter frequently slipping in large unsealed envelopes in transit.

There were 15,142 appointments of postmasters made during the last fiscal year; 14,435 of the fourth class and 707 being presidential, an increase of 638 to all over last year. There also has been an increase in the number of resignations, especially of the fourth class postmasters.

A vigorous effort has been made to suppress postoffices conducted throughout the country for the sole benefit of some corporation, patent medicine firm or other private institution, whose operations deprive the government of its legitimate revenues.

There were 407 resignations and forty-five deaths of presidential postmasters and 219 deaths and 8,013 resignations of fourth class postmasters during the year, an increase of 665 over last year, and 1,192 offices were discontinued, an increase of 407 discontinuances over last year, mostly due to rural free delivery extension and public highway improvement.

There were 407 resignations and forty-five deaths of presidential postmasters and 219 deaths and 8,013 resignations of fourth class postmasters during the year, an increase of 665 over last year, and 1,192 offices were discontinued, an increase of 407 discontinuances over last year, mostly due to rural free delivery extension and public highway improvement.

RECRUITING OFFICERS' TASK.

Department's Probable Call for Additional Enlistment Easy to Answer. ALWAYS PLENTY OF MEN READY TO SERVE.

WASHINGTON, Nov. 25.—In view of the probable call upon the War department to make a sudden increase in the enlisted strength of the army, after the present regular force has been discharged, it is a matter of considerable interest to see what may be done by the various recruiting officers toward building up the new regiments, when the number and strength of these is determined by the passage of the army reorganization bill.

The chief recruiting officer of the department, Major Johnson, says it is impossible to make any predictions as to the speed with which the recruiting can be carried on, but that it will depend largely upon the detail of recruiting duty.

PROMINENT MEN.

DIE OF BRIGHT'S DISEASE. Within the last few months the newspapers have contained frequent mention of the death of some prominent man, a victim of the malignant Bright's Disease.

Two men of wide repute—Mr. Henry Villard, the railroad magnate, and Marcus Daly, the Copper King—having died of this disease within a few days, and we now learn of the serious illness and expected death of a well known United States Senator, stricken with the same disease.

This only serves to show what terrible progress kidney disease is making, as it is reasonable to assume that where we hear of one death from Bright's Disease there are thousands we do not hear of. The most remarkable feature about this disease is that physicians seem totally unable to cope with it; strive as they will, the disease keeps gaining and the patient dies in spite of them.

Through all this fruitless experimenting on the part of physicians the marvelous efficacy of Prickly Ash Bitters in the relief and cure of Bright's Disease, Diabetes and Urinary troubles is becoming more generally recognized, and as a result its use has increased very rapidly.

It has been so uniformly successful in curing these diseases that many physicians have conceded its great merit while condemning proprietary medicines as a class. Results will prove the truth, and it is upon results achieved that Prickly Ash Bitters bases its claim to be a successful and speedy cure for diseases of the kidneys.

The secret of its success lies in the fact that in addition to its great healing influence in the kidneys and bladder it cleanses the system of impurities, strengthens the stomach and digestion, and regulates the bowels. All these organs are concerned when the kidneys fail to do their work, hence it is necessary to the successful treatment of the disease that they be strengthened and purified.

There is no case of Bright's Disease, where life still holds out that Prickly Ash Bitters will not help, and in milder cases it affords such prompt and effectual relief that strength and vigorous health are soon restored. Persons who have reason to suspect that their kidneys are not quite right should take warning—the disease spreads rapidly and becomes dangerous before the victim is aware that he is seriously affected.

The wise course is to be sure that the kidneys are well and strong. Prickly Ash Bitters offers the best means for putting these organs in condition. If they are affected it cures them; if they are healthy it does not harm them, but stimulates and purifies the entire system. Sold at Drug Stores.

There were just three jury cases. The one of Dow Black against Hermine Johnson, which grew out of a grain transaction, was decided in favor of the plaintiff, as was a similar case of M. J. Welch against William and C. W. Horrigan. The case of Theodore Britt against Z. T. Osgood et al. was brought to set aside a deed and the petition of the plaintiff was granted, subject to the condition that the plaintiff pay back to the defendant all moneys paid by him in satisfaction of mortgages and for improvements on the farm, amounting to \$2,770.18.

Siberian Prison Abolished. Siberia is no longer to be a penal colony. The imperial decree abolishing the former status is the result of the building of the Trans-Siberian railroad. Nothing can compare to the rapid settlement of the vast Siberian plains by the invading farmers, unless it be the rapid growth achieved by that famous dyspepsia cure, Hostetter's Stomach Bitters. Try it for constipation, indigestion, dyspepsia, biliousness or flatulence, if you would be well.

Woman's Work in Club and Charity.

The tendering of Mrs. Rebecca Lowe's resignation as president of the General Federation of Women's Clubs at the recent meeting of its board of directors, together with the board's decision to accept it and its manner of disposing of the "color question," has occasioned much comment and more speculation among the clubs. Though Mrs. Lowe pleads ill-health as her reason for wishing to lay down the responsibility of the action, there are those among whom are near friends, who say she has another and stronger reason for resigning at this time.

Carbolic Acid Victim Dies. In the case of Mrs. Frances Schaefer, who was found dead in her room at the Hotel Hamilton, the coroner's jury returned a verdict of death from carbolic acid poisoning.
